www.dzif-autumn-school.de

Dear Colleagues and Friends,

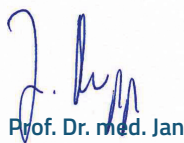

It is my pleasure and privilege to invite you to join the 12th Translational DZIF School, which will be held in Lübeck from 12h to 14th November 2025. With a special focus on translational science we aim to bring together clinical and basic researchers (PhDs, Post-Docs and junior group leaders) to discuss latest developments in Infectious Diseases and Clinical Microbiology. In this year's program major findings from the thematic translational units Community-Acquired Infections at Mucosal Interfaces, Emerging Infections, Hepatitis, and Malaria and Neglected Tropical Diseases will be presented. In addition, DZIF fellowship holders will present their work in separate sessions to explore their data with established researchers in the field. Furthermore, all other participants will be given the possibility to present their work within the scope of a poster session.

I am looking forward to share with you some exciting days in Lübeck, learning from each other in the dynamic and fastidious field of Infectious Diseases Research.

See you in Lübeck!

Best regards,

Prof. Dr. med. Jan Rupp
