

D-SOLVE and DZIF Translational Seminar Series 2025

The ABC of Viral Hepatitis from translational research to clinical practice

- a joint event of the D-SOLVE and DZIF Academy -

August to December 2025

Organisers

Prof. Dr. Heiner Wedemeyer
Dr. Carola Kaienburg
Dr. Jennifer Debarry

Department of Gastroenterology, Hepatology, Infectious Diseases and Endocrinology, Medical School Hannover
and Centre for Individualised Infection Medicine, Medical School Hannover

Programme

A strong connection between research and clinical practice is crucial for successful medical translation. Now entering its third year, our seminar series on hepatitis continues to explore the key stages that contribute to effective translation - from the latest scientific discoveries and ongoing clinical trials to firsthand experiences from medical practice and innovative therapeutic advancements.

This series is designed to foster deeper collaboration between researchers and clinicians, strengthening long-term partnerships. Organized in close cooperation between DZIF and the D-SOLVE Academy, the seminars will feature leading European experts in virology, immunology, and hepatology, as well as a distinguished specialist from South Korea, bringing a valuable international perspective.

August 18th 2025 at 5 p.m. (Medical School Hannover, building J01 - lecture hall M, Carl-Neuberg-Str. 1, Hannover | [hybrid](#) ID: 375 730 822 417, Passcode: JuW7tz)

“T cell exhaustion and beyond: lessons from chronic viral hepatitis.”

Prof. Dr. Maike Hofmann - Translational Experimental Immunology Section at University Hospital Freiburg, Freiburg (Germany)

October 27th 2025 at 5 p.m. (Medical School Hannover, building J01 - lecture hall M, Carl-Neuberg-Str. 1, Hannover | [hybrid](#) ID: 375 730 822 417, Passcode: JuW7tz)

The title of the talk is not announced yet.

Dr. Sabela Lens García, Viral Hepatitis Group, Liver Unit, Hospital Clínic Barcelona, University of Barcelona, FCRB-IDIBAPS, Barcelona (Spain)

December 8th 2025 at 5 p.m. (Medical School Hannover, building J01 - lecture hall G, Carl-Neuberg-Str. 1, Hannover | [hybrid](#) ID: 375 730 822 417, Passcode: JuW7tz)

The title of the talk is not announced yet.

Prof. Dr. Eui-Cheol Shin, KAIST, Center for Viral Immunology at the Institute for Basic Science (IBS), Daejeon (Korea)

Monday, 18 August 2025, 5 p.m.

Medical School Hannover
